Cutting Straight God's Word

2 Timothy 2:15

Believers today are incredibly fortunate. We have easy and instant access to God's word today. A study by Lifeway found that the average household owns 4.3 physical copies of Bibles. I have that many just within my arm's reach. This does not count electronic copies. We are surrounded by Bibles. The question then becomes, do we know how to use our Bible? The Bible is more than a book. It is the word of God. God commands believers to "cut straight" His word.
